

About Us

Who are we? We are senior citizens (men and women who think we are still boys and girls) who enjoy a competitive situation that stimulates us far more than sitting in front of a TV set all day. Even though we can no longer do the physical things that we did in our 20's, 30's and 40's, the competitive spirit still burns brightly within our soul. We still yearn for that moment of glory when we get the game winning base hit or make a sterling play in the field to shut down the other team.

Though our league is about competition it is more importantly about comradeship. By being together and playing the grand old game of softball we are able to mix with other people our age and get some great exercise while at the same time having a great social environment to exercise our minds.

We are all about respect!. Respect for the game, respect for our teammates, respect for the opposing players and above all respect of ourselves. If you want to continue being “young” join us for the greatest senior social club in existence.

Leon Moore, (Infielder)

2010 Commissioner- H.A.R.D Senior Softball
